County of Brunswick
Office of the County Commissioners

RESOLUTION TO LIMIT THE SOURCE OF C & D

Whereas, the approximately 90,000 people that live in Brunswick County are generating 560,000 pounds of municipal solid waste, and approximately 490,000 pounds of construction and demolition debris per day in the year 2006, and

Whereas, the management of the volume of waste that must be accommodated has become expensive and poses certain problems that cannot be avoided, and

Whereas, the permitting process in North Carolina allows the County to limit the source of some of the material that is coming into the system, and as the taxpayers of the County are providing the cost of the management and monitoring of this by-product of development, the County has decided to limit the flow.

Now therefore, the Brunswick County Commissioners are hereby resolved, to limit the flow of construction and demolition material into the County's landfill to sources that are within the County, and hereby notifies all licensing or permitting agencies of this action.

This the 12th day of June, 2006.

David R. Sandifer, Chair
Brunswick County Commissioners

Attest:

Deborah S. (Debby) Gore, Clerk to the Board, CMC
